- No hidden surprises
- CE Certificated & ISO 9001 Certificated
- A pleasant experience

NGK Spark Plugs, Hemel Hempstead

STRUCTURAL STEELWORK

Vital to any construction, we provide a full design, manufacturing and erection service for any project from small boundary walls to large steel framed buildings.

HEALTH & SAFETY

Health & Safety is fundamental to the successful operation of our business. All our statutory responsibilities for health, safety and welfare are met and we are committed to the continual assessment and improvement of our staff. Overall we aim to not only meet, but to exceed, our statutory requirements.

STAIRCASES

A carefully designed staircase can act as the perfect centrepiece. From the most basic shape to unique designs, our staircases are often used to enhance anything from prestigious commercial properties to private homes.

Dane's yard, Stratford

THE WAY FORWARD

Whether you have already used our services or you are considering us for the first time, we hope that you will allow us the opportunity to quote for your work.

Whatever your requirements, large or small, we will be delighted to provide you with a no obligation assessment, a quotation and a solution tailored to your specific needs.

Our central location in Bedfordshire gives us easy access to the rest of the UK, so wherever you are, we can be there too.

We look forward to hearing from you and hopefully having the opportunity to work with you.

Some examples of our diverse range of work are shown throughout this brochure. More examples, as well as case studies, are available on request.

**SPECIALISTS IN STRUCTURAL
& ARCHITECTURAL STEELWORK**

HBE SERVICES LTD

HBE SERVICES LTD

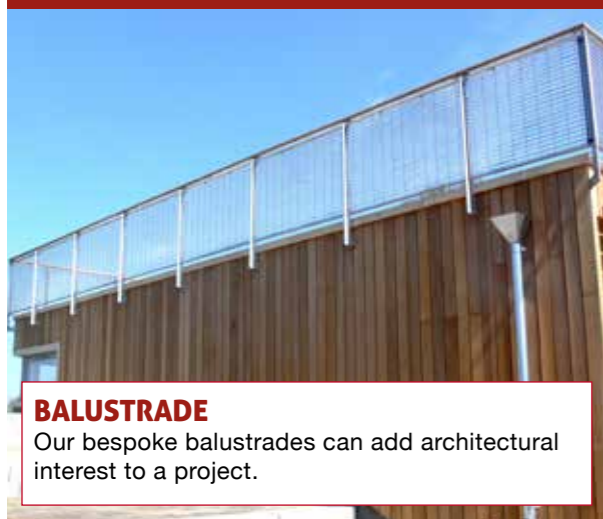

Established in 2008, HBE Services was set up to provide a total solution to all your steelwork needs. Our clients benefit from the many years experience our team has in the industry, as well as a truly personal service that is hard to find elsewhere.

Our highly trained steel fabricators and installers, have considerable experience working on everything from new builds from the ground up, to total renovations. Projects range from architectural and structural steelwork to totally bespoke fabrications.

A 'Customers First' philosophy means that many of our customers keep coming back to us. We have built a reputation for quality, reliability and versatility in the industry, which is why we have had the experience of working on many prestigious projects.

Importantly, all our solutions are always tailored to the needs of our customers. It doesn't matter if we are working on a small residential project or a multi-million pound development, we always aim to provide solutions that meet and hopefully exceed expectations.

St Albans Girls School

BALUSTRADE

Our bespoke balustrades can add architectural interest to a project.

STRUCTURAL GLASS

Structural glass panels are a perfect way to combine a clear view with an understated lightness that ideally complements both modern and classic buildings.

Rokeby School, Kinston Upon Thames

OUR SERVICES

In order to deliver a first class service, as well as employing an experienced team of experts, we have also invested in a fully equipped workshop, state-of-the-art equipment and the latest design and CAD facilities.

Our wide range of specialist and highly professional in-house skills and services include:

- Estimating
- Site surveying
- CAD design
- Fabrication
- On site welding
- Structural alterations
- Installations
- Proof load testing
- Project Management
- Inspections

Where we are not able to do something in-house, the many strategic relationships our team has built up over the years means that we can still provide you with a complete professional solution.

In summary, we offer a comprehensive one-stop design and build service for architectural and structural steelwork. From domestic extensions to commercial buildings, from simple low cost projects through to complex developments, we aim to provide a full bespoke solution to all your needs.

EXPERIENCE

HBE Services is proud to have worked with many local, national and international clients on projects which have been both challenging and interesting.

Our work with both domestic and commercial customers has given us a wealth of experience in many fields. Using the experience we have gained over the years we are confident that our team will be ready to help you, whatever the challenge.

We also have significant experience in a number of specialist sectors. For example, we have gained over 15 years experience working with the Water Industry. We have used our knowledge and experience to manufacture water tanks, access platforms, walkways, stairs, ladders, lifting equipment, open mesh and durbar plate flooring covers.

There are many other sectors where we have a specialist knowledge and we would be delighted to discuss these with you.

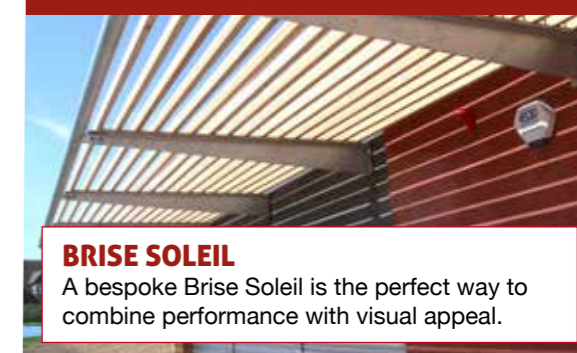

HANDRAILS

Not just a practical item, handrails can add something special to a project.

Picton Place, Mayfair, London

New Pavilion, St Albans Girls School

BRISE SOLEIL

A bespoke Brise Soleil is the perfect way to combine performance with visual appeal.

OUR PROCESS

Every client is unique and the service we provide varies depending on what is required. However, some typical items that are often part of our process include:

- **Understanding your needs** – We believe it is vital to have a full understanding of your needs and objectives, so that we can use our expertise and experience to deliver a solution that will ultimately meet and hopefully exceed your expectations.
- **Assessment and Quotation** – Once we understand your needs, we will put forward an assessment of what we think is required and a quotation for the work. Importantly, we will work with you to make sure all your requirements are met and that there are no hidden surprises along the way.
- **Fabrication**- However simple or complex your needs may be, we always take great pride in the fabrication of all our steelwork.
- **Installation**- Our installation service provides a total solution. We will take responsibility and project manage everything from transportation to testing, so that we can always produce quality results.
- **Handover** – After our testing and inspections, we will leave you a happy customer.
